About This Game

Description

Memetown USA is a short, tongue-in-cheek roleplaying game about saving the world from a dangerous church trying to destroy the universe. The game is **usually** 2D, but it also has some spicy 3D cutscenes showcased in the trailer below. Memetown USA may be small in scope, but it makes up for it with intense AAA quality meme material.

Features

- An epic story that spans dozens of minutes, possibly even hours if you're slow.
- An in-game computer packed with crazy meme-editing software and an entire in-game internet.
- Deep-fried cutscenes.
- A built-in online service for sharing memes with other players.
- Frog-themed boss battles.
- An original soundtrack inspired by the greatest meme songs of our generation.

-
- Multiple volumes of meme scripture, including Holy Bible 2 and Duderonomy 420.

Story

Welcome to Memetown, a typical city in every way except one: memes. Memes are a way of life in Memetown. Memes are everywhere. Memes are products. Memes are people. Memes are religion. Especially religion. In fact, something about the church seems a little suspicious. Maybe it's worth checking out..

Recently there have been rumors of a dangerous cult residing in the woods near Memetown. Maybe they know something we don't..

The amount of effort required to make this game far exceeded the value of the end result.

I PAYED 18.00 DOLLARS TO GET THIS GAME AND CANT EAVEN GET THE GOD DAM THING IN THE AIR IT IS THE WORST GAME I EVER PLAYED IF YOU ARE MAKEING A GAME TELL PEOPLE WHO PAY FOR YOU DUMB GAME HOW TO PLAY THE THING I AM 31 YEARS OLD AND STILL THIS IS THE BIGGIST WASTE OF MONEY I HAVE EVER MAID IN MY 31 YEARS . Brings it back to the epicness [sic] of the original Phillip of Macdeon campaign.. pretty art, interesting puzzles. Not bad. Try 1st dude. Enjoy :D. The campaign is great, and I love the voice controls. Only problem is the multiplayer has been dead for years, but there are way to play with your freinds on himachi though.

Amazing!!! that all I can say for this song. What the description does not tell you is that you need terrific reflexes and situational awareness to do all the blocking, dodging, and rapid movement you'll be doing. That wouldn't be so bad, except you also die in one hit.. pretty good game. This is a great replication of an old british route!

The sounds on the new rolling stock included, which is new to TSW (everything but the 101) are great and very realistic compared to other DTG releases. The great physics also make this route pretty challenging which is a great thing. the rolling stock is also as usual with TSW graphicly amazing. The only bad thing with the external looks that I could find was that the nose on the class 37 looks a bit off.

The scenery is descent in some places, but I think there is too many weird empty fields alongside the Tracks. The stations is very well modelled in my opinion it looks. It is also good to see traffic still included as we saw in the last route dlc with buses also appearing on the road, but it feels like very little variety especially when there is like four buses all looking the exact same, on the same stretch of road. I must say something else I really like is the different smoke effects coming out of the chimnies.

The highlights areas on the route are the Redcar steel mines which is beautifully modelled aswell as the Tees yard which offers a huge shunting abilty with a class 08 which I think turned out great. However, I think they should have added alot more than the four shunting services there are now.

all in all I think this was a good addition to TSW with a good amount of rolling stock with good quality, but quite a short route, the part you get however is very detailed so it kind of ways up. If you like British freight I highly recommend this. If you are more interested in passenger operation, Northern Trans-Pennine is pretty similar to this and is all passenger(for now) so I would recommend that instead..

Great game that is like limbo.. You know what problem is with this DLC and Safe Heaven? Paying a lot of time on finding \u2665\u2665\u2665\u2665\u2665 here and there.

You always need craps like keycard, kits, tools ... so you have to search every corner to find them, and they never tell you any clue where those damn things are. Wandering up and down makes game so boring. I passed Safe heaven and then stuck here because I couldn't find a keycard. I walked everywhere I could reach with an alien following. You know what? I just walked for half an hour without hiding because the alien was curious when this fool could find the keycard. At last I fired the pistol letting alien kill me since I couldn't shoot myself.. I've only played this game for 24 minutes as of writing this review, but I've grasped the concept and am certain that I've experienced everything.

The Good

- * Cute artstyle
- * Unique control scheme
- * Easy to learn, hard to master
- * 50 levels
- * Low price
- * Survival mode that extends your playtime

The Bad

- * Some achievements are pretty grindy, like buying all of the helicopters
- * The hitbox seems to slightly bigger than the helicopter itself actually is.

It's a fun, cheap game. No regrets. I'll be playing this for a few hours in total most likely

Overall

6V10. it would'nt even load don't know how it got bbest reviews in the series. If you want a hunting unlimited game get the 2008 version. This game got unfairly bashed in reviews back when it came out. Playing it for the first time in 2018, I found it tries to do a lot of stuff that we take for granted in todays games. Not everything goes smoothly for U2 though, but overall it's an enjoyable game. Not super, not comparable to U1 (totally different gameplay), but quite good on it's own none the less.. Really nice to be driving on Brands Hatch in this game,the physics are spot on:D
